

# Required DRDP Assessor Training for Special Education

The California Department of Education, Special Education Division, requires annual DRDP training for all special educators who assess children with the DRDP.

- SELPAs are responsible for ensuring that all staff who administer the DRDP complete training.
- All required training is accessed through [DRAccessLearn.org](https://draccesslearn.org).
- When creating an account with [DR Access Learn](https://draccesslearn.org), assessors should make sure to select the correct District and SELPA to ensure their training progress goes to the correct SELPA.

*Note: The DR Access Learn account login is unique and not associated with other Desired Results Access Project logins such as DR Access Reports.*

## Three online courses are required:

**Online Course 1**  
Using the DRDP (2015) for Special Education  
**Infant/Toddler**

**1**  
Using the DRDP (2015) for Special Education – Infant/Toddler

**Short Course**  
**Benny Having a Snack**

**2**  
Benny Having a Snack

**Online Course 1**  
Using the DRDP (2015) for Special Education  
**Preschool/TK/K**

**-or-**  
Using the DRDP (2015) for Special Education – Preschool/TK/K

**Online Course**  
**Using DR Access Reports**

**3**  
Using DR Access Reports

The courses will appear in the assessors account one at a time. Once a course is completed, the next one will become available.

Assessors must complete the DRDP for all eligible children *regardless* of course completion status. SELPA Directors will receive training status reports throughout the year.

## Optional professional development opportunities will be offered throughout the year.
